

AAVARNA

by Studio 17

buildōfy®
made with love in India

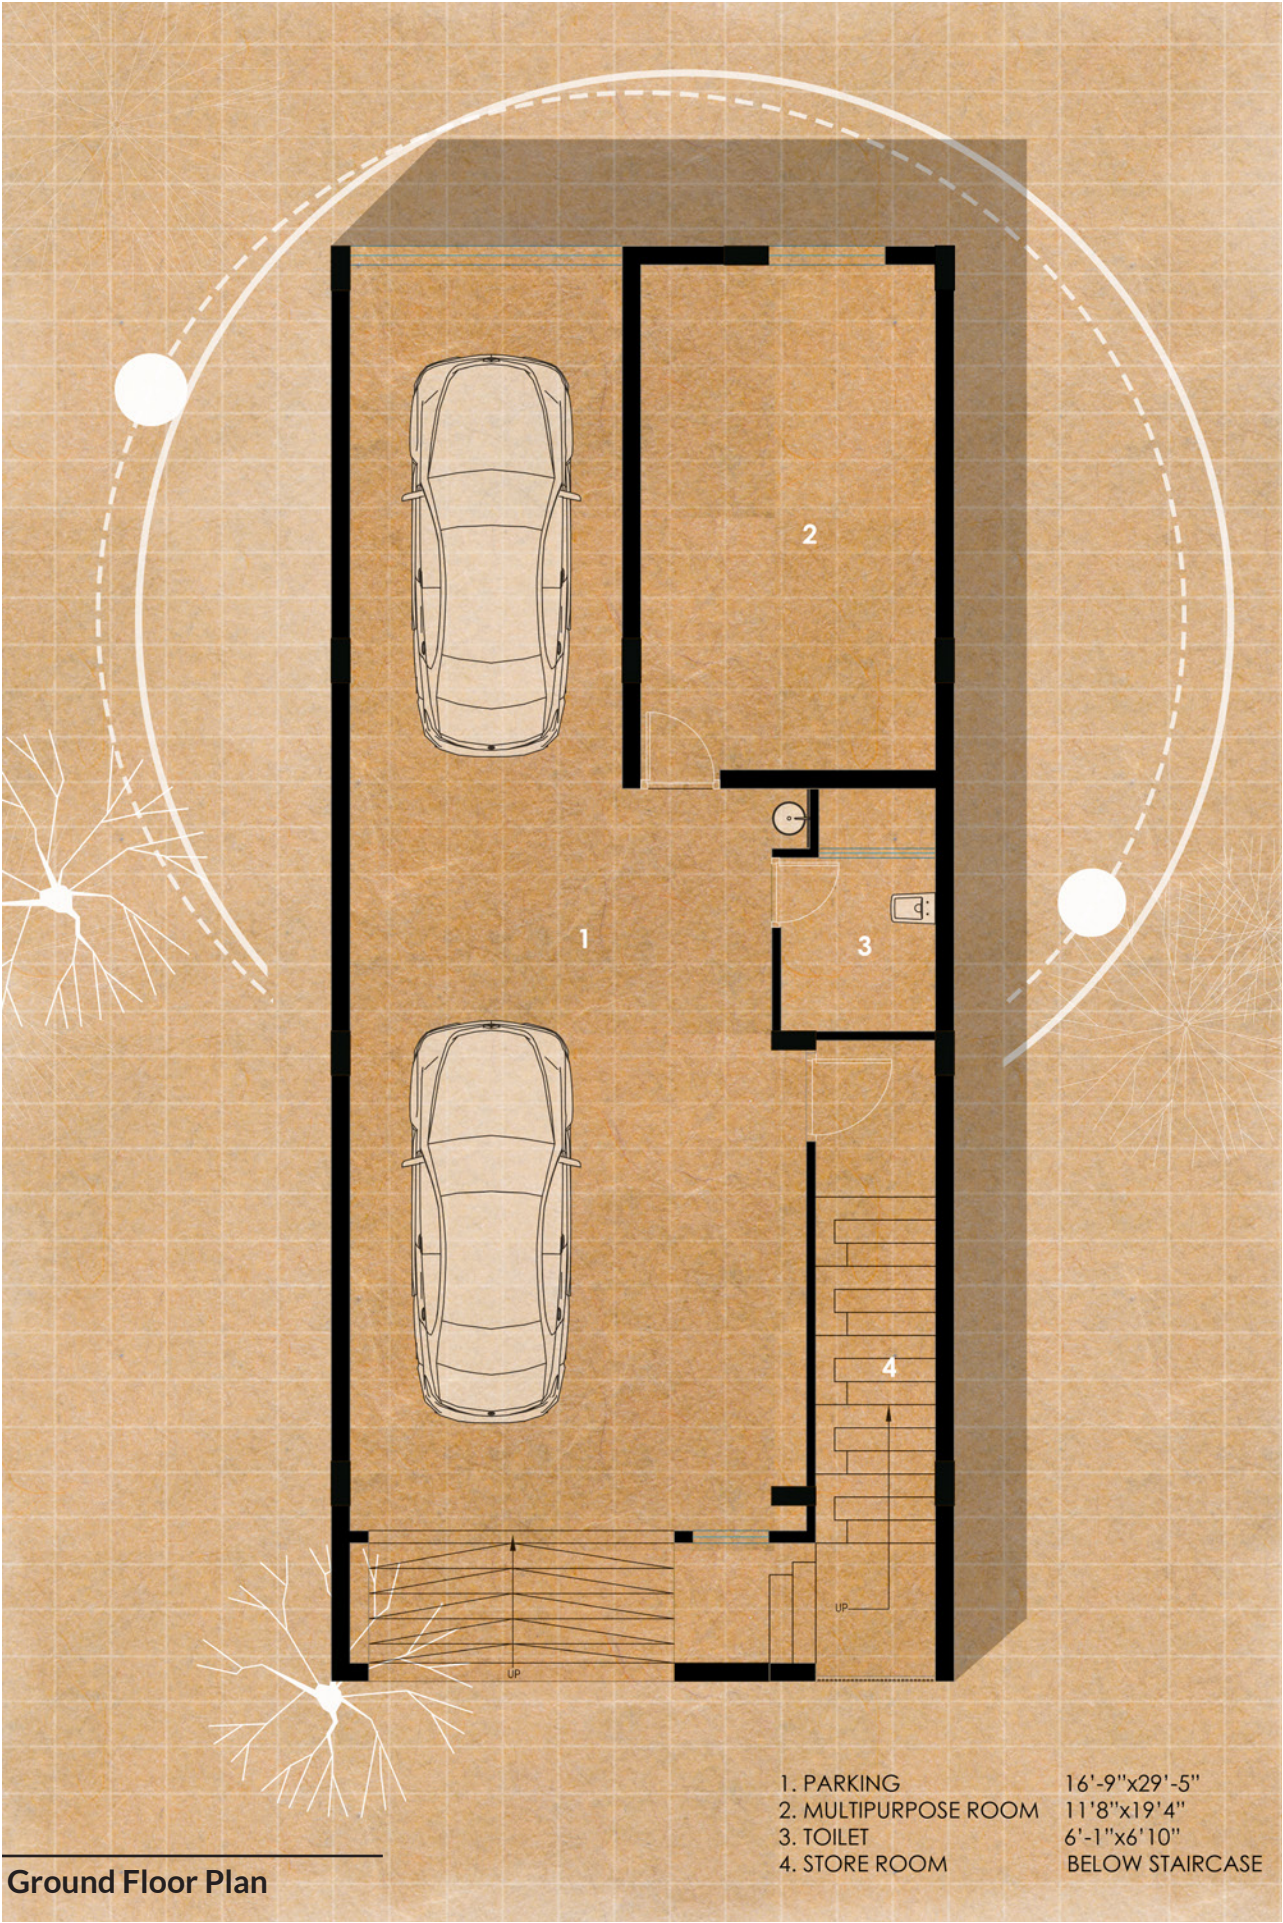

Project Location	: Sania Gam, Surat, Gujarat
Architectural Firm	: Studio 17
Principal Architect	: Mayur Mangukiya and Ankit Sojitra
Project Team	: Dhruvik Panwala, Rahul Gajera
Plot Area	: 1,344 sq. ft.
Plot Dimensions	: 24' x 56'
No. of Rooms	: 3
No. of Car Parks	: 2
Built-up Area	: 4,230.75 sq. ft. (393.04 sq. m.)
Timeline	: Feb 2019 - April 2020
Vastu Compliance	: Yes
Project Cost	: INR 4,200 - 4,500 per sq.ft.

“Modern simplicity and shapes are the most acceptable and standout combinations in general, which is implemented in Aavarna.”

Design Concept

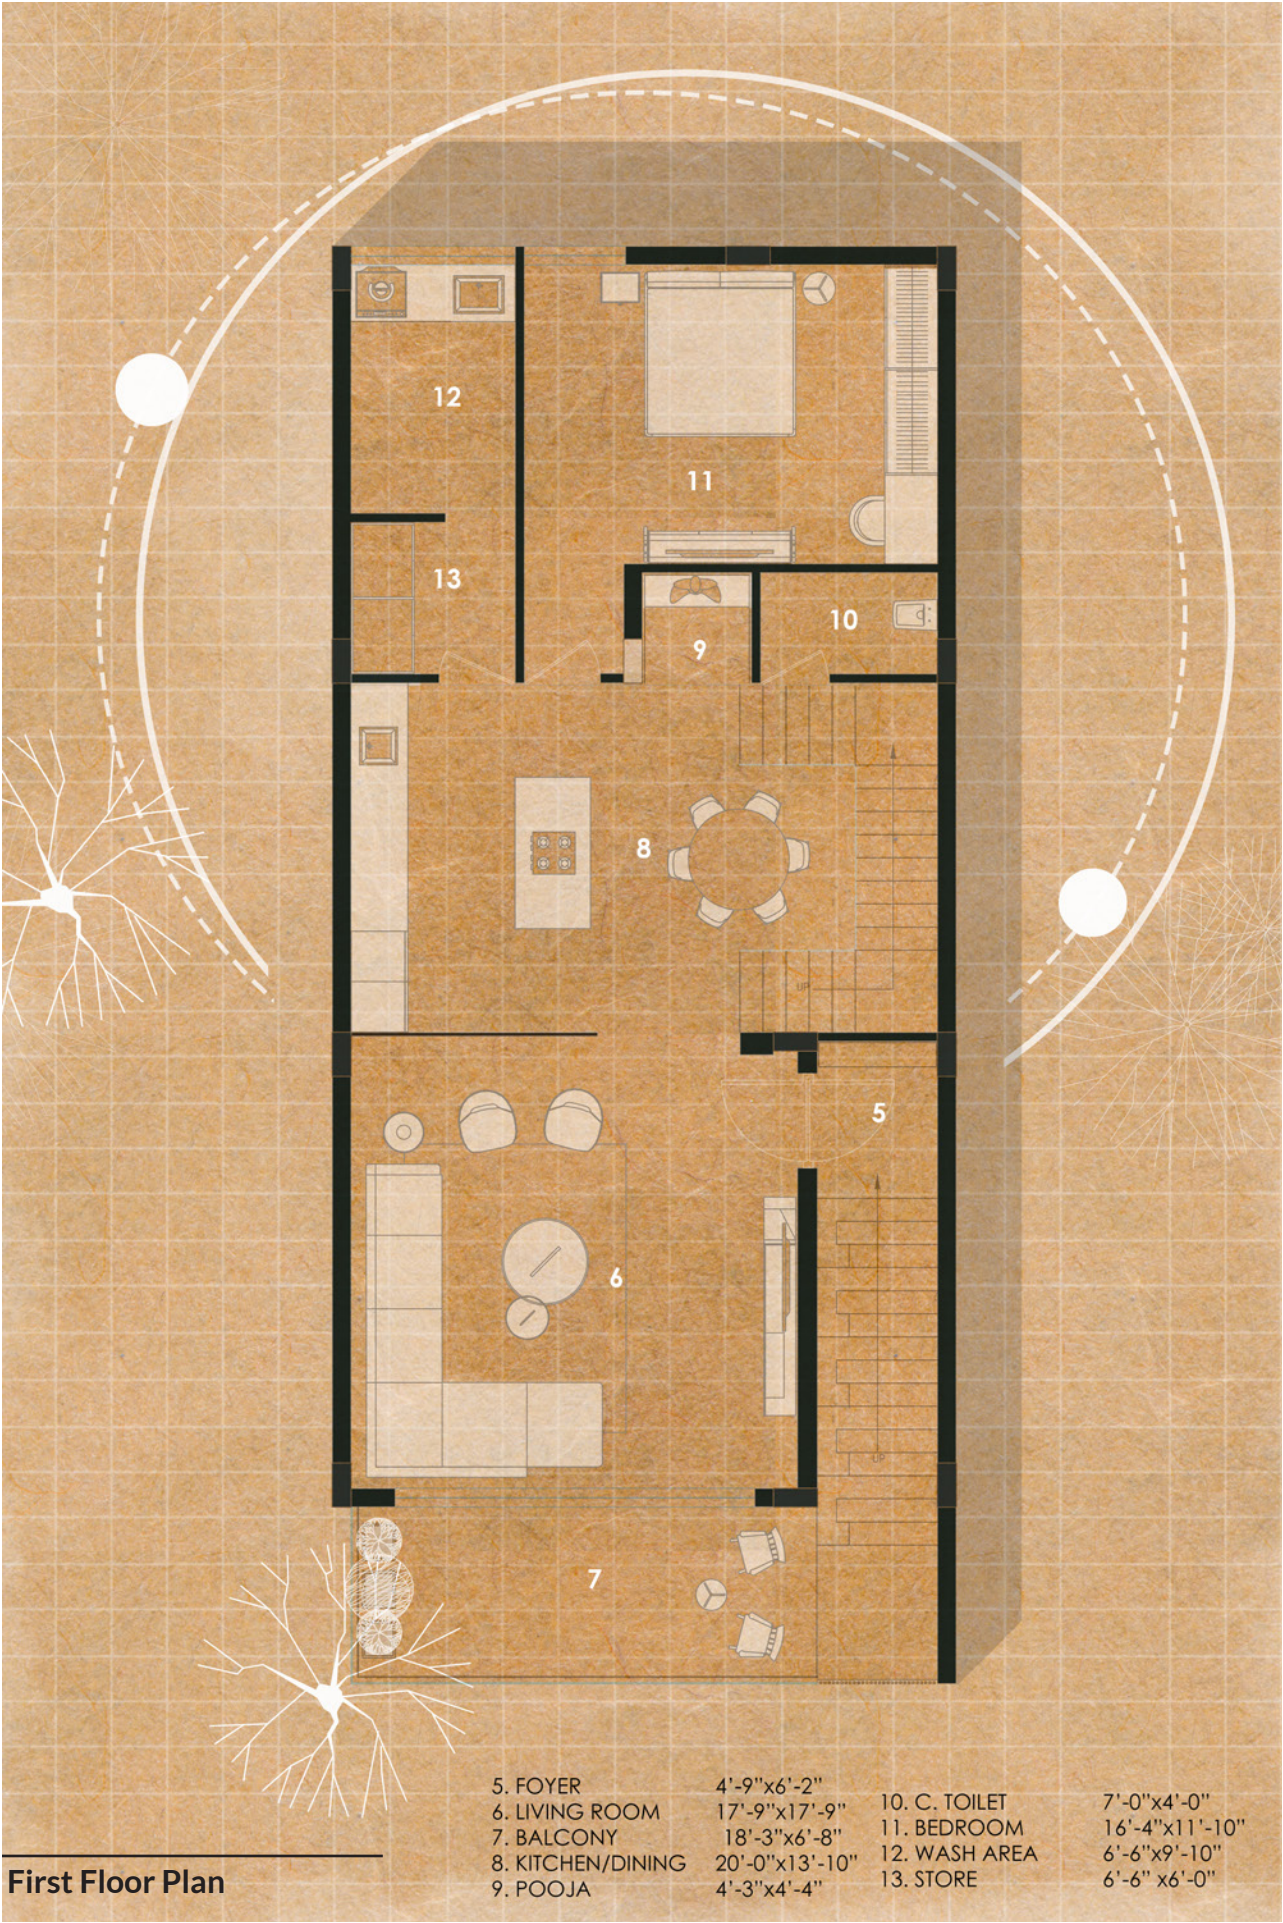

'Aavarna' is the Sanskrit abbreviation of the word Shapes. This project is an architectural vision of a single-dwelling bungalow on a simple longitude rectangle in the narrow plot size of 24' x 56'. The client had a keen interest in keeping things minimal. Hence the architects aimed to bring simplicity by combining it with these shapes. A common thing here was that each started at one point and completed at the same point, showing a connection. And so did the house.

Ground Floor

The ground floor accommodates all the parking areas, storage, a washroom, and a multipurpose room. A smart play of steps in the exterior staircase comes into the vision playing the card of a monochromatic look along with terracotta color taking one onto the first floor, from where the actual house starts.

First Floor

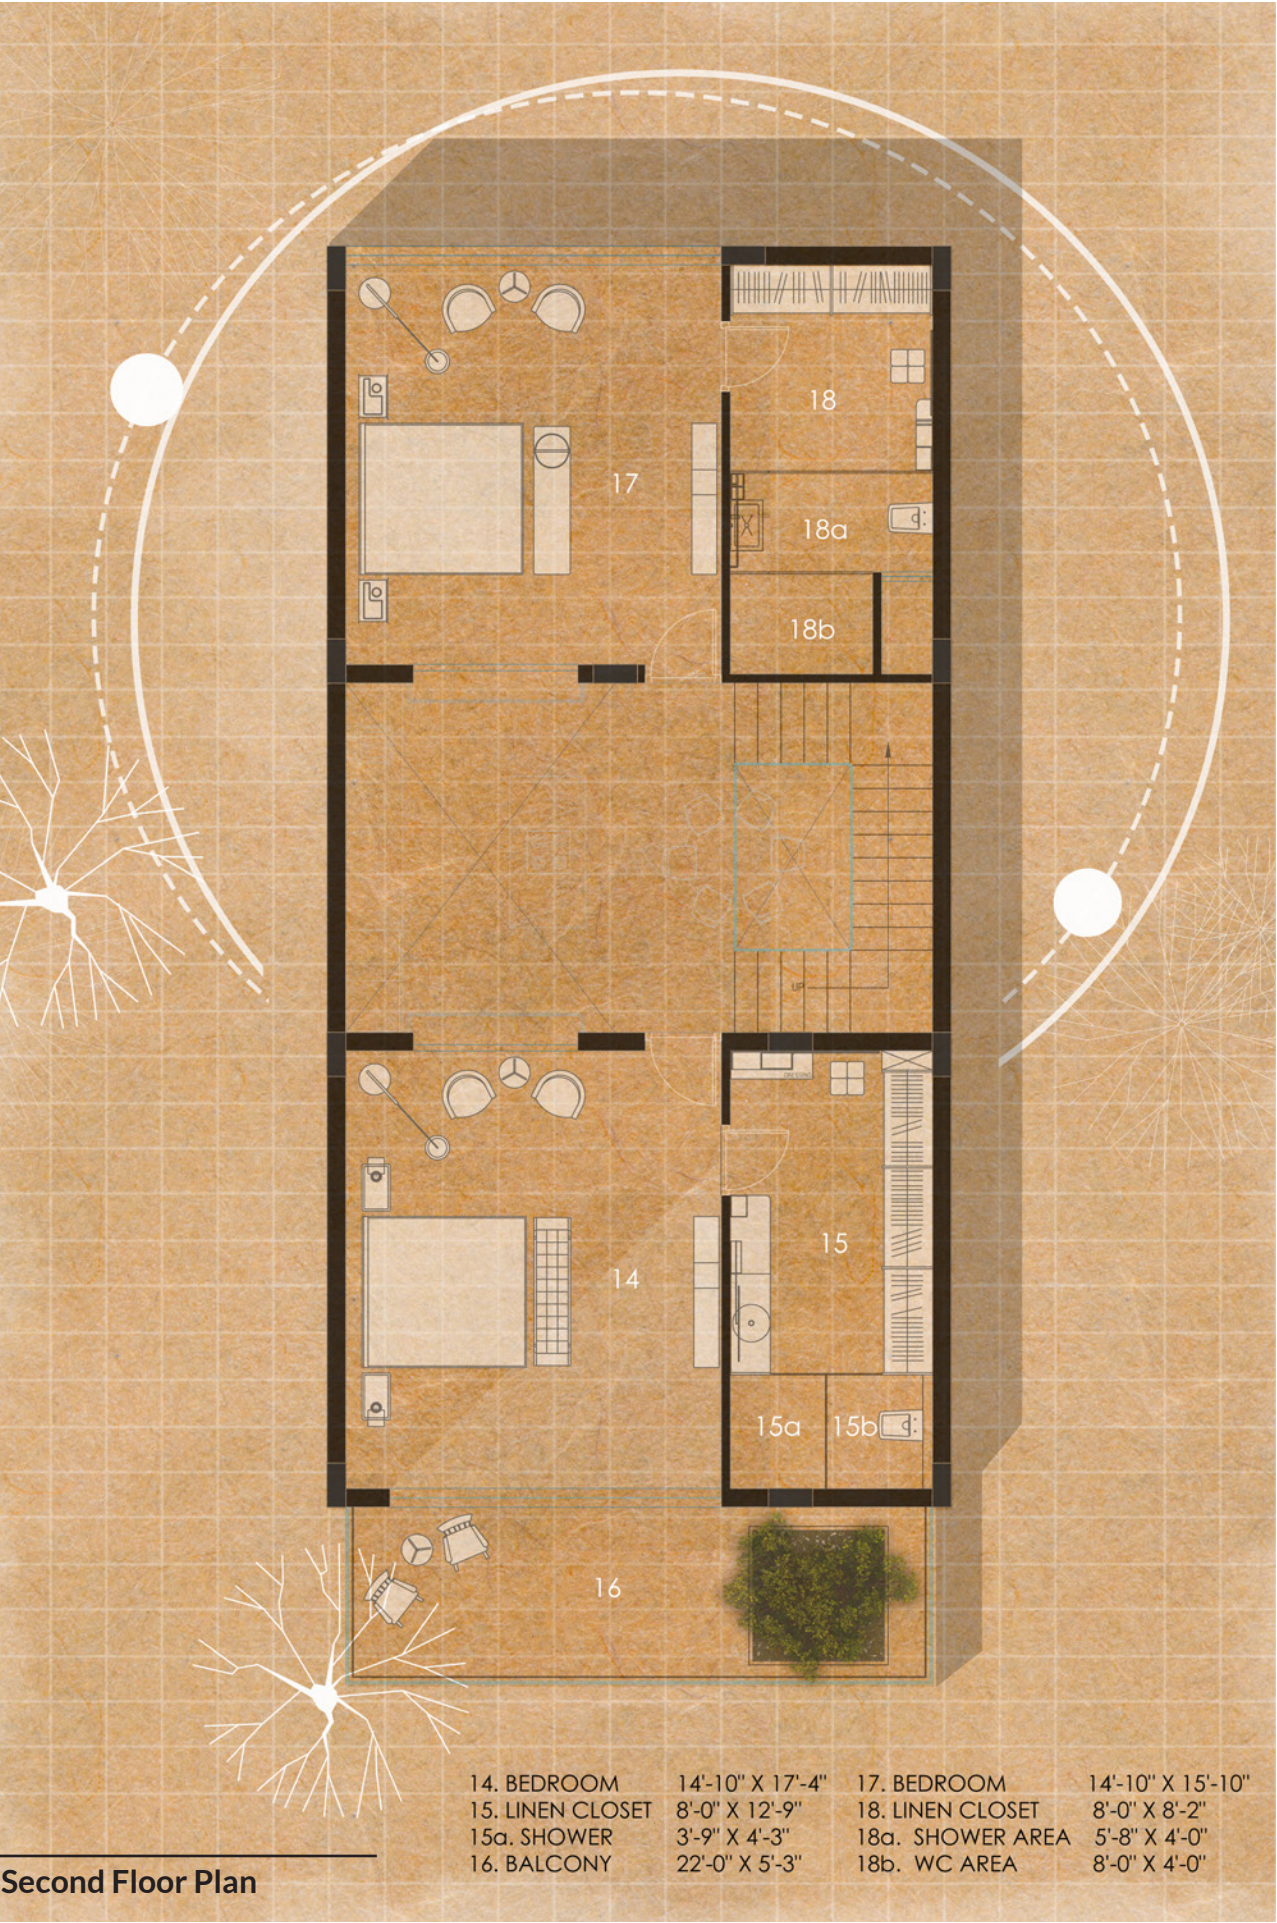

A median size drawing room breaks the vision as soon as one enters the house. The color palette was kept subtle with a tint of a rich white coverlet. The back wall is highlighted with the famous Bindu and grey bamboo texture in the background. The paneled wall leads to four spaces following the wash area, parents bedroom, pooja room, and common toilet.

Parent's Bedroom

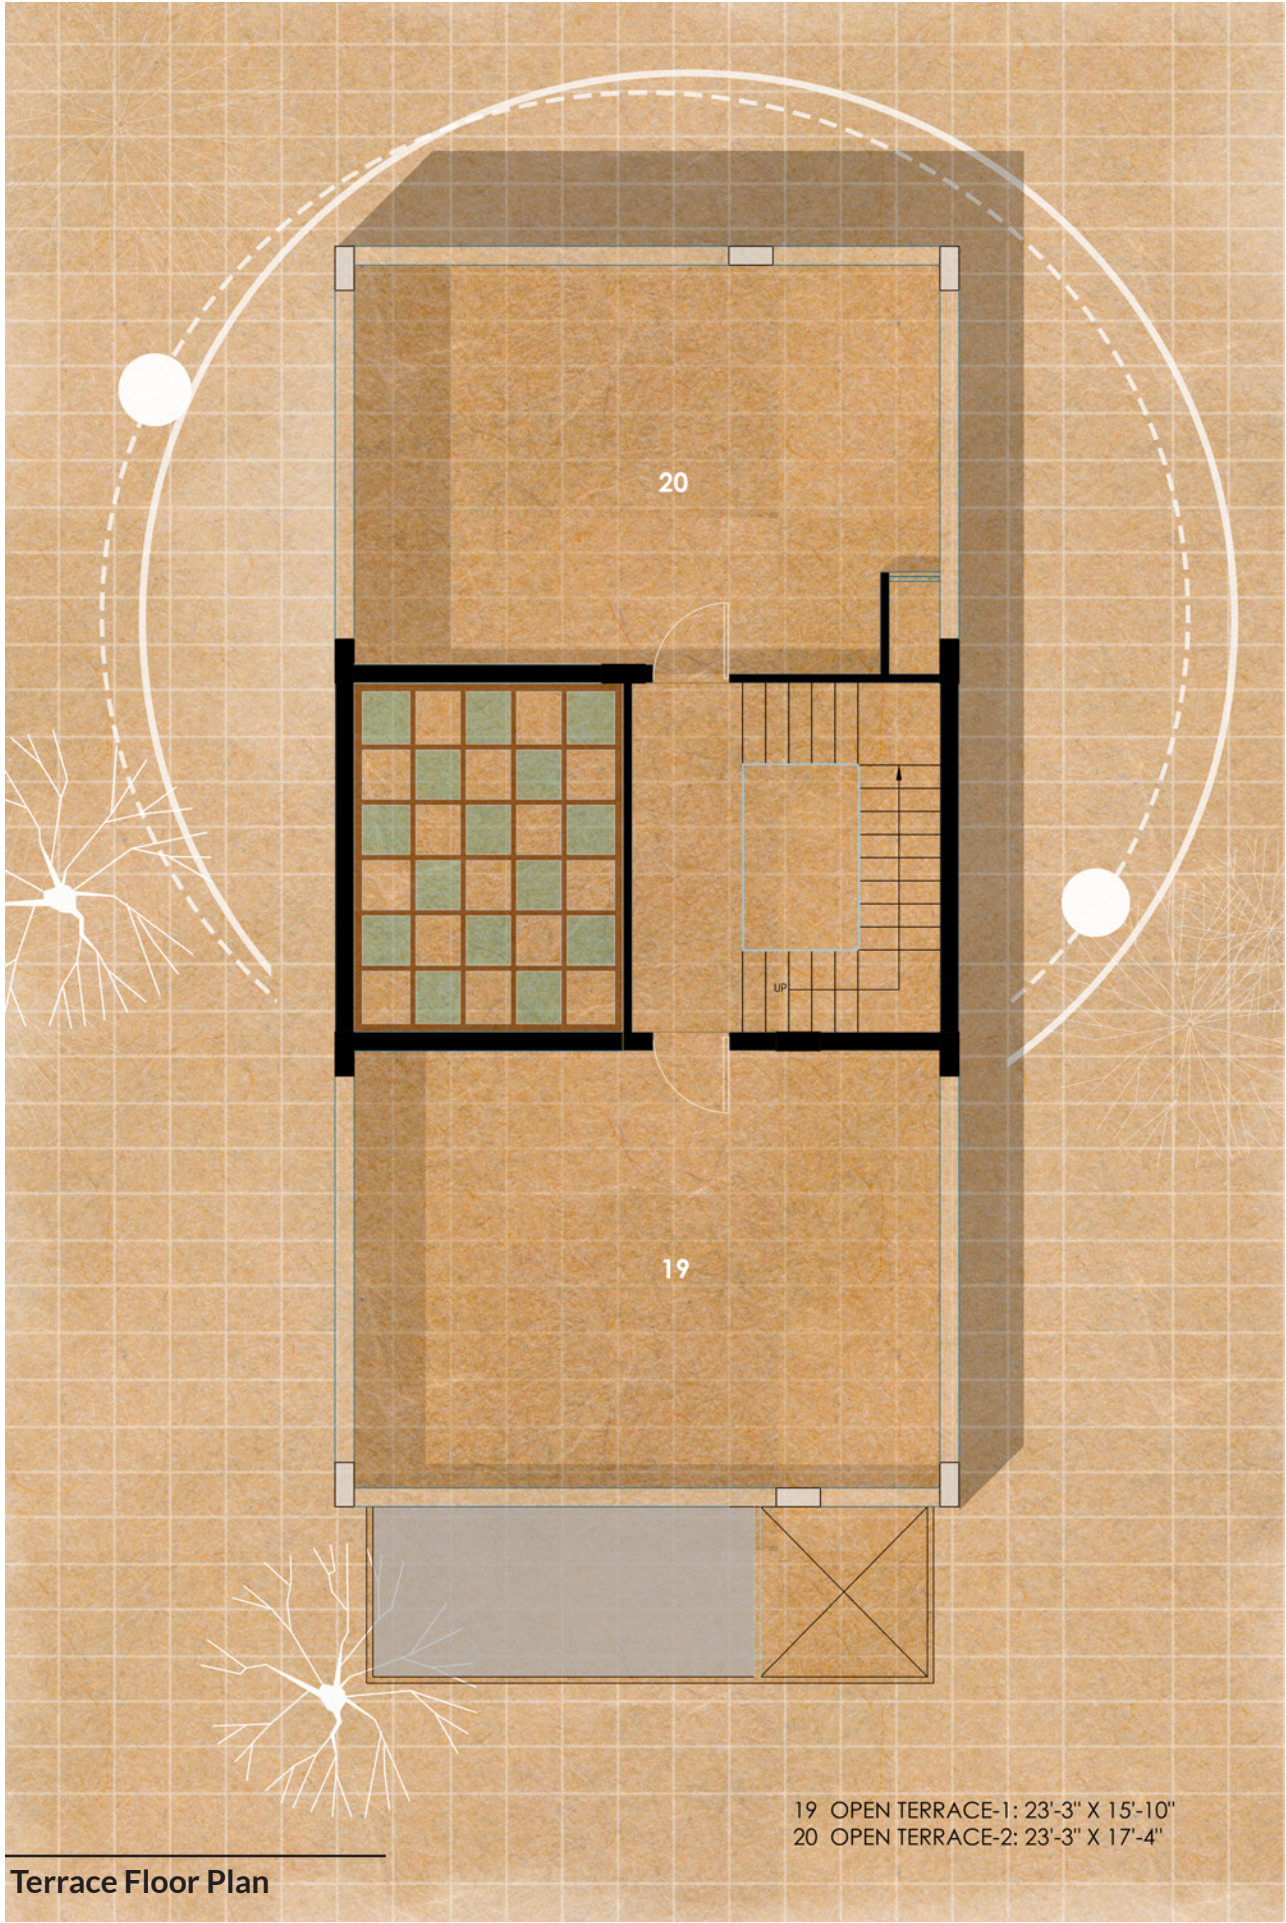

The parent's bedroom has a combination of three materials with the shapes highlighted prominently. The dark stone and veneer break out due to the combination of shapes used. The dark tiles here bring out the brass shapes more effectively.

Second Floor

On the second floor, the rear side bedroom gives all the bright and positive synergy, as this bedroom appears on the backside of the plot and offers a great view to the user. The design is kept very simple with a textured wall and three abstractions of Raza’s painting for beautification and connection with the house concept. The front side bedroom is the pier-glass of the previous bedroom, with its bed back nicely highlighted and blended with the Bindu concept abstracting the circular form into a dissimilar composition.

Terrace Floor

Both bedrooms on the second floor have vice versa Juliet balcony popping out in the center where an amazing composition of Skylight is done under RCC. At every space, levels are inter-connected to each other in the means of concept, materials, and communication.

Inspiration from the Artwork

The client's requirement of bringing simplicity and art together was fulfilled by introducing the famous artist Sayed Haider Raza's Painting Series called Bindu. It is derived from the Indian concept of Shunya (meaning zero in Hindi), which inspired the architects to create something from nothing (Shunya).

Section through the double-height kitchen

The double height central area overlooks the kitchen and connects all the internal spaces. The concept of dark color with some popping has been continued in the kitchen over the shutter and island that is paneled with black dekton tile. Nicely placed skylight brings the light and wind directly in the kitchen and also in the upper floor bedrooms due to the Juliet balconies.

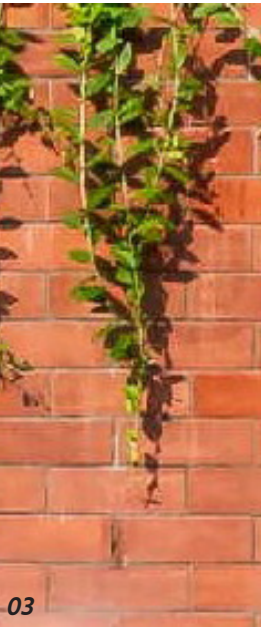

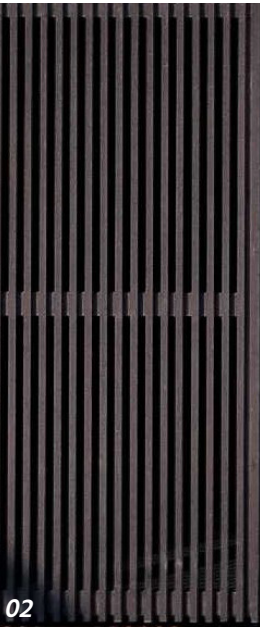

The Facade

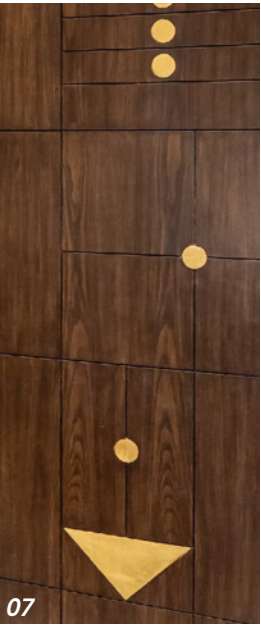

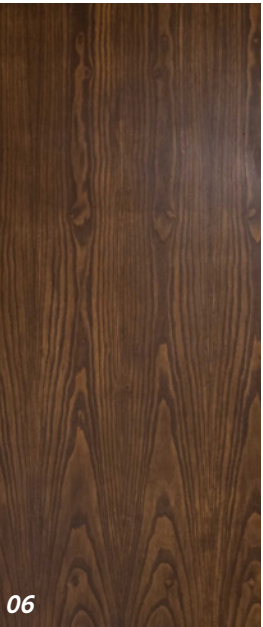

Aavarna is a best example of modern simplicity verbalizing its language with grey texture in the exterior, a burst of terracotta breaking the monochrome vision along with the nicely placed verdure. It gives a room of brightness and positiveness to the home.

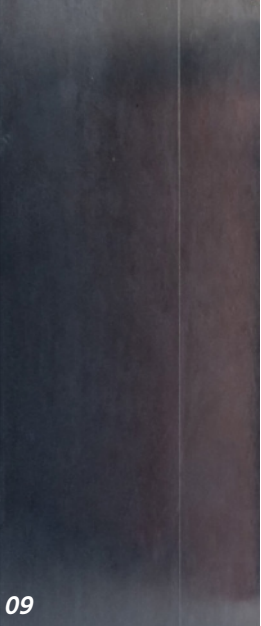

Facade Materials
01 / Cameleo Textured Paint
02 / MS Louvered Screen
03 / Exposed Brick

Internal Wall Finishes
04 / Black Dekton Tiles
05 / Black tiles with yellow brass shaped cutouts
06 / Wooden veneer
07 / Wooden tiles with popping yellow brass shaped cutouts

Flooring Materials
08 / Grey Marble Flooring
09 / Black Vitrified Tiles
10 / Terracotta textured Tiles

Unique Material Applications

Windows:	Fenesta from Glazing Box
Tiles:	Sunheart from Metro Ceramics
Lighting:	China
Color:	Asian Paints
Sanitaryware:	Kohler from Bajaj World
Bath Fittings:	Kohler from Bajaj World
Furniture:	China Import
Furnishings:	D'Decor from Mantra and Saheb Krupa
Carpets and Rugs:	China
Hardware:	Haffle
Kitchen Sink:	Carysil
Ply:	Greenlam from Shree Ply Agency
Veneer:	Timex
Laminates:	Shiv Shakti - 50 Shades of Grey
Security:	Panasonic
Air Conditioning:	Mitsubishi
Marble:	Shree Ram Marble
