THE BRIEF

Four Questions for This Session

01

What sizes?

Which plot and built-up combinations make our villa mix.

02

What does the market sell?

How Hyderabad's gated communities size, price and place their villas.

03

What should it look like?

The elevations our team keeps choosing, and built houses that prove them.

04

What should it offer?

Villa features by size, and the amenities that would set us apart.

THE BRIEF

Four Villa Sizes on the Table

SIZE 1 200 sq yd plot 2,500–3,000 sq ft built-up	SIZE 2 200–350 sq yd plot 3,000–4,500 sq ft built-up	SIZE 3 400–550 sq yd plot 4,000–5,000 sq ft built-up	SIZE 4 800– 1,000 sq yd plot 5,000–8,000 sq ft built-up
---	---	---	---

1 sq yd = 9 sq ft · a 200 sq yd plot is 1,800 sq ft, about 30 × 60 ft

How Hyderabad Sizes Its Villas

BUILT-UP ÷ PLOT AREA

On small plots, developers stack a G+2 triplex. As plots grow, the extra land goes into gardens and setbacks, not floor area.

THE HYDERABAD MARKET

Where Each Size Sells

150–220

sq yd • the outer ring

Mokila, Shankarpally, Kollur,
Kondakal, Tukkuguda, Raviryala,
Kompally–Medchal

Listed at about ₹7,500–11,000 per sq ft

250–400

sq yd • the western growth belt

Tellapur, Kollur, Kokapet,
Nallagandla, Patancheru,
Hafeezpet

500–1,000+

sq yd • the estate belt

Narsingi, Gandipet, Manchirevula,
Gopanpally, Kondapur,
Rajendranagar

Listed at about ₹19,000–35,000 per sq
ft

THE HYDERABAD MARKET

Our Sizes Against the Market

SIZE 1

Lighter than market

200 sq yd villas here are mostly G+2 at 3,200–3,300 sq ft. Our 2,500–3,000 means a duplex or a smaller triplex.

SIZE 2

Right on market

Matches TAG Amity, Vessella Meadows, Kolla Luxuria and Sansa County's 300 yd type.

SIZE 3

Tight cap

400–550 yd villas are often built to 4,600–5,850 sq ft, so a 5,000 cap rules many out.

SIZE 4

Aligned

Fits how the estate communities build, such as Hidden Coves and Jayabheri Temple Tree.

The Look We Keep Choosing

37 images, 29 distinct designs, 7 styles. Most are tropical modern: low hip roofs, deep timber soffits, vertical timber battens, stone and a cantilevered carport.

Most references are concept renders (ReScale Studio, Qui Ho, Ian McKay); #23 is a built house, Kalpataru in Bengaluru

FOR THIS ROOM

Decisions for This Room

I	Villa mix	Which of the four villas we build, and in what share
2	Density and site	Estate, Garden or Cluster, and in which belt
3	Size 3 cap	Hold 5,000 sq ft, or move toward the market's 5,500–5,850
4	Design language	Vastu plans with the four signature elevations
5	Amenities	Approve the five-senses trail; pick 3–4 signature amenities

NEXT STEPS

From Brainstorm to Brief

- Match the chosen villa mix to land in the right belt
- Shortlist architects from our precedents
- Test-fit floor plans for each chosen size
- Cost the shortlisted amenities and clubhouse
